

Product Change Notification

PCN No: 2022-PCB-02

Date of Notification: January 6, 2022

Notification Type: Product Obsolescence

Products Impacted: KAA016 series female receptacle connectors

Part Numbers Affected: Part numbers with KAA01622 and KAA01626 prefixes

Example: KAA0162210

Dear Valued Customer,

The mold tooling required to manufacture the insulators used in the 16 position KAA series female receptacle connectors has reached the end of life and is no longer capable of manufacturing product to the excellent level of quality expected from Smiths Interconnect.

As a result of this, and declining customer requirements, we are obsoleting these KAA016 series connectors. Currently there is a very limited stock of the insulators used in the KAA016 female receptacles, which is available for a last time buy of these connectors, on a first-come first-served basis.

If there is interest in a last time buy for these connectors, please place your order by January 31, 2022. Thank you.

Best regards,
Tom Kannally
