

PRODUCT LIFECYCLE BULLETIN

HBN-1002/1003/1004/1005/1006/1007/1008 legacy series08th Sept'25

Dear Customers and Partners,

This bulletin provides an overview of the lifecycle for the circular HBN-1002/1003/1004/1005/1006/1007/1008, part numbers and its associated components.

The lifecycle of HBN-1002 and HBN-1003 part numbers are changing from **Active** to **Inactive**, meaning these parts will not be manufactured as standard, but may be supported upon request; however subject to availability of parts and components - price, minimum order quantity (MoQ) and lead time will be confirmed for each request for quote (RFQ). Whereas lifecycle of HBN-1003/1004/1005/1006/1007/1008 part numbers are changing from **Active** to **Obsolete**, meaning these parts will no longer be available after last-time-buy (LTB) orders have been delivered.

We are offering our Customers and Partners an opportunity for a last-time-buy (LTB) purchase order (PO) for which must be placed by **19th December 2025**. Please note that all price books which include these part numbers will be invalid with immediate effect. So, for LTB, please send your request for quote (RFQ) to your usual contacts in Sales or Customer Service.

Please note that while we will endeavour to support all our Customers and Partners for the LTB, this offer is subject to availability of parts and components and to that end Smiths Interconnect reserves the right to cancel or materially amend the offer.

If you have any questions or require any clarification, please do not hesitate to contact our local Sales representatives.
