

Product Change Notification

PCN No: 2020-PCB-15 (rev 1)

Date of Notification: December 4, 2020

Updated: April 26, 2021

Notification Type: Product Obsolescence

Products Impacted: HDT078UFS00119 connectors

Part Numbers Affected: HDT078UFS00119

Dear Valued Customer,

The mold tooling required to manufacture the insulator for subject connector has reached the end of life and is no longer capable of manufacturing product to the excellent level of quality expected from Smiths Interconnect. As a result, effective immediately, this HDT078UFS00119 connector is no longer available with no possibility for a last time buy.

As a substitute, we can offer a one-time buy for this connector with a machined insulator at a higher price to cover the additional cost. This alternative insulator would be machined from a different material; Tecatron GF40 black PPS material would be used, as opposed to the Vectra Black A410 as per our molded product specification. This one-time buy opportunity would be available through May 28, 2021.

Best regards,

Tom Kannally
