

# PRODUCT LIFECYCLE BULLETIN

## Modular HMV Series

30<sup>th</sup> April'26

Dear Customers and Partners,

This bulletin supersedes the one issued on 22<sup>nd</sup> July 2025.

The lifecycle of this series is changing from **Active** to **Obsolete, except** for parts in **Schedule A which will remain Active**.

The lifecycle for the part numbers starting with 'HMV..' (for example HMVHTXM001514, HMVHUXM002600, etc.) will change from **Active** to **Obsolete**, meaning all parts and the components within its bills of materials in the entire product series will no longer be available, except for the part numbers outlined in **Schedule A**, which will continue to remain **Active**.

For all part numbers starting with HMV..., except for the ones in Schedule A, we are offering our Customers and Partners an opportunity for a last-time-buy (LTB) purchase order (PO) for which must be placed by **31<sup>th</sup> July 2026**. Please note that all price books which include part numbers from HMV series connector will be invalid with immediate effect. So, for LTB, please send your request for quote (RFQ) to your usual contacts in Sales or Customer Service.

Please note that while we will endeavour to support all our Customers and Partners for the LTB, this offer is subject to availability of parts and components and to that end Smiths Interconnect reserves the right to cancel or materially amend the offer.

If you have any questions or require any clarification, please do not hesitate to contact our local Sales representatives.

**Joydip Sanyal**  
Product Group Manager  
Business Unit – Connector

## Schedule A – List of Active part numbers and descriptions

| TLA Item      | Item description               |
