

## PRODUCT LIFECYCLE BULLETIN

### E Series

24<sup>th</sup> January 2025

Dear Customers and Partners,

This bulletin provides an overview of the lifecycle for the E Series connector.

The lifecycle for the part numbers outlined in the Schedule A, will change from **Active** to **Obsolete**, meaning all parts and the components in the entire product series will no longer be available. We are therefore offering our Customers and Partners an opportunity for a last time buy (LTB), purchase order (PO) for which must be placed by **31st March 2025**. For all enquiries related to LTB, please email to [connectors.emeatechsupport@smithsinterconnect.com](mailto:connectors.emeatechsupport@smithsinterconnect.com).

Please note that while we will endeavour to support all our Customers and Partners for the LTB, this offer is subject to availability of parts and components and to that end Smiths Interconnect reserves the right to cancel or materially amend the offer.

If you have any questions or require any clarification, please do not hesitate to contact our local Sales representatives.

**Joydip Sanyal**  
Product Line Manager – General Industrial  
Business Unit – Connector
