

PRODUCT LIFECYCLE BULLETIN

HR and HA Series Heavy Duty Coupler/HYPERMOD

20th December 2024

Dear Customers and Partners,

This bulletin provides an overview of the lifecycle for the HR and HA Series – Heavy Duty Coupler/HYPERMOD product lines.

The lifecycle for the part numbers outlined in the Schedule A, along with all other configurations within the Hypermod product family, will change from **Active** to **Obsolete**, meaning all parts and the components in this product series will no longer be available. We are therefore offering our Customers and Partners an opportunity for a last time buy (LTB), purchase order (PO) for which must be placed by **31st January 2025**. For all enquiries related to LTB, please email to connectors.emeatechsupport@smithsinterconnect.com.

Please note that while we will endeavour to support all our Customers and Partners for the LTB, this offer is subject to availability of parts and components and to that end Smiths Interconnect reserves the right to cancel or materially amend the offer.

If you have any questions or require any clarification, please do not hesitate to contact our local Sales representatives.
