

PRODUCT LIFECYCLE BULLETIN

Rectangular Modular HCV series

15th May 2026

Dear Customers and Partners,

This bulletin provides an overview of the lifecycle for the **rectangular modular HCV Series** connector. This series has been superseded with the rectangular modular L Series; however, the L series is not interoperable/interchangeable/backwards compatible with the HCV Series.

The lifecycle for the part numbers starting with 'HCV....' (for example HCVHNXM001294, HCVHNYF001294, HCV-1300, etc.) will change from **Active** to **Obsolete**, meaning all parts and components within its bills of materials in the entire product series will no longer be available after all last-time-buy (LTB) orders have been delivered.

We are offering our Customers and Partners an opportunity for a last-time-buy (LTB) for parts starting with HCV, purchase order (PO) for which must be placed by **01st Sept 2026**. Please note that all price books, which include part numbers from HCV series connector will be invalid with immediate effect. So, for LTB, please send your request for quote (RFQ) to your usual contacts in Sales or Customer Service.

Please note that while we will endeavour to support all our Customers and Partners for the LTB, this offer is subject to availability of parts and components and to that end Smiths Interconnect reserves the right to cancel or materially amend the offer.

If you have any questions or require any clarification, please do not hesitate to contact our local Sales representatives.
