Lead Time Chart, Sample Required Reference Table, Testing Procedures

Release **02/15/18**

EMC High Reliability and S-level products are being offered with standardized lead-times. Use Table I below.

Table I: High Reliability Lead-Times

HR03/HR05/HR09/HRKFA with Group A	12 Weeks ARO
HR03/HR05/HR09/HRKFA with Group B	18 Weeks ARO
HR03/HR05/HR09/HRKFA with Group C	20 Weeks ARO
HRT/HRM/HRW/HRK with Group A	12 Weeks ARO
HRT/HRM/HRW/HRK with Group B	18 Weeks ARO
HRT/HRM/HRW/HRK with Group C	20 Weeks ARO

When customers purchase High Reliability or S-level products, they will designate whether Group A, B, or C is required. When entering an order, the following additional line items will be required.

Table II: Sample Line Items Required @ unit price on the purchase order.		
	HR03/HR05/HR09/HRKFA	HRT/HRM/HRW/HRK
Group A Total	None	3 TCA Samples
Group B		
Sub-group 1	Add 3 samples	Add 3 Samples
Sub-group 2	Add 4 Samples Burn-In	Add 4 Samples Burn-In
Group A & B Total	7 Samples	10 Samples
Group C	Add 4 Samples for Stepped Burn-In	Add 4 Samples for Stepped Burn-In
Group A, B & C Total	11 Samples	14 Samples

All sample line items should be entered separately onto the factory order immediately after the corresponding HR line item at the unit price based on the total quantity purchased per value. These items must appear on any quotations and on any purchase orders received from the customer.

Working Reference Sheet for Quotations

HR03/HR05/HR09/HRT/HRM/HRW series

Group A samples:

TCA destruct samples will be shipped separately in a waffle pack marked "TCA Samples".

Group B Samples:

3 Test Samples for Group B sub-group 1 will be shipped in a waffle pack marked "Group B, subgroup 1 Samples".
 4 Burn-In Samples for Group B sub-group 2 will be shipped in a waffle pack marked "Group B, subgroup 2 Life Test Samples 1000 hour Burn-In @ 70°C".

Group C Samples

4 Qualification Samples for Group C will be shipped in a waffle pack marked "Group C Qualification Samples 1000 hour Stepped Burn-in (250 hrs/500 hrs/750 hrs/1000 hrs) @ 125°C".
 Use Table III below for a reference showing what tests are included when requesting Group A, B, or C designators.

Table III: Testing Procedures to be Included (TP-8965 and TP-9030)			
HR03/HR05/HR09/HRT/HRM/HRW series			
	Group A	Group B	Group C
Pre-Cap Inspection	✓	✓	✓
Initial RF Testing	✓	✓	✓
